Press release

More restaurants and services in Vis à Vis Wilanów

The group of tenants of the mall Vis à Vis Wilanów has just got bigger. Villa Nova Dental Clinic has started its activity there, and two restaurants: Sakana Sushi and an Indian restaurant, are preparing their openings. The gym Orangetheory Fitness will soon open too, and has recently launched a pre-sale of membership cards.

After less than five months from the opening of Vis à Vis Wilanów, the offer of the center is systematically broadened with new stores and services. The medical center Villa Nova Dental Clinic began its activity in February, occupying two-story premises with a total area of over 800 sq.m. (143 sq.m. on the ground floor and 644 sq.m. on the first floor). In order to provide the best care for the constantly growing number of patients, 17 modern dental offices have been created there. Villa Nova Dental Clinic is a facility with many years of experience, awarded with numerous prizes and certificates. The mission of the clinic is combining medical knowledge, aesthetics and the latest technology.

– Our specialists, with their professionalism, experience, unique commitment and access to the latest technologies, help even the most demanding patients get a dazzling smile. We provide them with a full range of dental care, in a nice atmosphere, putting first and foremost comfort and safety of each patient. The mission of the clinic is to create new, healthy and beautiful smiles, based on the latest technologies, the best medical materials, devices and systems according to the highest standards of medical treatment – says Justyna Bartosik, Villa Nova Dental Clinic.

Also two tenants from the restaurant sector are preparing to open their premises soon. One of them is Sakana Sushi Bar restaurant, which will take up the premises with an area of over 138 sq.m. This restaurant chain has been dynamically developing on the Polish market, already running five restaurants in the largest Polish cities (including Krakow, Warsaw, Poznań, and Katowice) and planning further expansion. Sakana will offer its future guests not only a rich sushi menu, but also a selection of other Japanese dishes, all in an intimate atmosphere and pleasant decor. A characteristic feature of Sushi Sakana restaurant is a common round table with the guests sitting around it and sushi makers working inside, preparing dishes in front of everyone's eyes. Next to Sushi Sakana, there will also be an Indian restaurant with an area of approx. 130 sq.m. Both premises will have outdoor gardens, where the clients can enjoy their meals on warm days. Currently, fit out works are underway in both restaurants, and their opening is planned for the third quarter of this year.

Another tenant, whose offer will soon be available to the customers of Vis à Vis, is the Orangetheory Fitness gym chain, which will open its premises at Przyczółkowa Street at the turn of May and June. It will be the second club of this brand in Warsaw, and at the same time in Poland. It will offer its future clients one hour long group circuit trainings – based on individual measurements of body parameters of each exercising person, supervised by a personal trainer. The advantages of such training is the optimization of effort, tailored individually for each participant, the fact that it covers all the muscle groups, and that the calorie burning effect lasts even after 36 hours after the end of the training session. At present, the chain is arranging the premises, which will be opened in about a month, and is also launching the pre-sale of club memberships at promotional prices.

The Warsaw Vis à Vis mall, opened on the 1st of December 2018, is a friendly convenience center, situated at 219 Przyczółkowa Street, at the border of Błonia Wilanowskie and Powsin, by the road 724 connecting Warsaw with Konstancin-Jeziorna. Moreover, a planned expressway junction of the Warsaw Express Ring Road S2 is being developed a few hundred meters from the mall, which will in the short future enable easy connection with the main city access roads. The total lease area of the mall is over 4,000 s.qm., with 17 stores and service points, leased by such retailers, as the first Warsaw's restaurant of Max Premium Burgers, a drugstore Hebe, an electronics store RTV Euro AGD, Decathlon, and also some local operators, such as a food shop "Kwestia Smaku", a dry cleaner's "Lemon Fresh", a grocery store "Owoce i Warzywa Świata", a wine store "Vininova", a newsagent's store GLM and a flower store "Kwiaty i...".

The mall is distinguished by its friendly architecture, green surroundings and convenient access to commercial premises directly from the car park, where 105 car parking places are available. The mall is also friendly for active people and cyclists, for whom special facilities have been made available, including about 60 dedicated bike parking spaces and a self-service bike repair station.
