

KINGA NOWAKOWSKA

Board Member, Chief Operating Officer

Since 2007, Kinga Nowakowska has been a key member of Capital Park Group, serving on the Management Board as Chief Operating Officer. She is deeply involved in the Group's flagship projects, including Royal Wilanów and the Norblin Factory.

Kinga holds a degree in Law from the Sorbonne University in Paris, specializing in International Business Law.

Since 2007, Kinga Nowakowska has been a key member of Capital Park Group, serving on the Management Board as Chief Operating Officer. She plays a central role in the Group's largest projects, overseeing the execution and management of prestigious Warsaw developments such as the Norblin Factory and Royal Wilanów.

Kinga supervises the Asset and Property Management services provided by the Capital Park team and is also responsible for the Group's marketing and project promotion. She is the creator of the Biuro Plus concept, which ensures that each Capital Park project incorporates tailor-made solutions designed to meet tenants' needs. These solutions focus on high-quality architecture, sustainability, green spaces, promotion of sports and physical activity, art and culture in communal areas, a wide range of services, and a creative approach to asset management.

In addition to real estate, Kinga invests in startups across various sectors. One of her most notable ventures is BioBazar, Poland's first organic, certified food market, operating in Warsaw and Katowice.

“

The core work we do every day on our projects is managing them and bringing their shared spaces to life. We aim to create places that are open and welcoming to the neighborhood, the city, and diverse audiences. Each time, we carefully analyze the surroundings of our developments and select functions that complement and enrich the local landscape.

”
